A GOVERNMENT DEFEAT

OPPOSITION GAINS A VICTORY IN
THE BRITISH HOUSE OF
COMMONS.

THE IRISH CHEER WILDLY

Proposition to Close Textile Factories
at Noon the Question Under Discus-
sion—Vote Stood 163 to 141—Con-
servatives Have a Plan to Reduce
the Present Irish Representation in
Parliament.

London, Aug. 13.—The government
was defeated in the house of commons
in the course of the debate on the fac-
tory bill. The house supported by 163
to 141 a proposal, opposed by the gov-
ernment, that textile factories should
close at noon instead of at 1 o'clock
p. m. as now.

The opposition and the Irish mem-
bers cheered wildly.
Mr. Ritchie, the home secretary, an-
nounced that the government would
accept the decision.

Timothy Healy, amid laughter, re-
marked that the home secretary had
shown great resignation, but not the
sort of resignation the house wanted.

ARE AFTER THE IRISH.

Unionists Would Reduce Their Repre-
sentation in Parliament.

London, Aug. 13.—In the course of
their speeches Saturday at a Unionist
demonstration at Blenheim palace
Mr. Balfour and Mr. Chamberlain al-
luded to the necessity confronting
parliament of taking some measures
to abate Nationalist obstruction in the
house of commons and referred sig-
nificantly to the over representation
of Ireland in parliament. These hints
have been eagerly seized upon by
Unionists and the Unionist press,
which is publishing letters and articles
explaining how, if Ireland were only
represented in proportion to the other
parts of the United Kingdom, she
would send to the house of commons
about 30 fewer members than at pres-
ent. The idea is gaining ground that
the government meditates making that
the principal business of the next
session and that Ireland will be of-
fered a sort of compensation by the
concession of a more extended system
of local self-government.

A section of the ministerialists has
long urged this reform upon the gov-

ernment, but, until recently, ministers
seemed reluctant to enter upon the
difficult task of redistributing parlia-
mentary representation, which might
precipitate another dissolution.

A BIG WEEK'S WORK.

Kitchener Sends in the Largest Re-
turn He Has Yet Had.

London, Aug. 13.—In a long dis-
patch reporting the operations of
various columns Lord Kitchener says:
"I am glad to be able to send you
the largest return I have yet had for
one week. Since Aug. 5 the columns
report 29 Boers killed, 20 wounded—
including Commandant Moll, danger-
ously—685 prisoners, including Wol-
marans, late chairman of the first
volksraad; 85 surrenders, including
Commandant de Villiers, and the cap-
ture of 24,400 rounds of ammunition,
754 wagons, 5,580 horses and large
quantities of stock. Most of the cap-
tures were made in Orange River Col-
ony."

In the course of a description of the
operations Lord Kitchener says that
General French in Cape Colony is
"gradually driving the enemy's scat-
tered bands northward."

SEVERAL ARRESTS PROBABLE.

Dying Man Confesses to Helping Kill
a Fellow Workman.

Middletown, O., Aug. 13.—Edward
Grossman of Manchester, Mich., who
met his death on April 31 last, was
supposed to have been struck by a
train.

During the day a man known as
Medler, who is dying from consumption
in a Cincinnati hospital, made a
statement that Grossman was working
in a paper mill at Franklin O., and in-
curred the enmity of other employes,
who placed a rope about his neck,
raised and lowered him from a beam
and finally jerked his head up against
the iron shafting, fracturing his skull.
Grossman was then placed on the rail-
road tracks to cover up the crime.
Several arrests are probable.

Race Goes to the Columbia.

Newport, R. I., Aug. 13.—The Con-
stitution covered the triangular course
of 20 miles in 33 seconds less time
than the Columbia. The champion of
'99, however, wins the race on time
allowance by about 30 seconds.

TELEGRAPHIC BREVITIES.

Richard Croker will sail for New
York Sept. 5.

Two men were killed in a freight
wreck on the Cotton Belt road near
Texarkana, Ark.

During a terrific thunder storm at
Greenville, S. C., two persons were
killed and five injured by lightning.

NOW FAIRLY LAUNCHED

STRUGGLE BETWEEN THE TRUST
AND STEEL WORKERS UN-
DER FULL SWING.

ADVANTAGE WITH FORMER

Cut Fourteen Thousand Additional
Men Obey President Shaffer's Or-
der—Total Number Now Out Is
About Sixty Thousand—Strikers
Make Gains During the Day With
Prospects of Further Accessions.

Pittsburg, Aug. 13.—The struggle
for mastery between manufacturers
and men in the steel industry is now
fairly launched and on the first show
of strength advantage is with the for-
mer. The general strike order issued
by President Shaffer of the Amalgam-
ated Association has so far been ob-
eyed by only about 14,000 men, ac-
cording to the best figures obtainable
here. The first two preliminary calls
were answered by about 45,000 men,
so that the total number now out is
in the neighborhood of 60,000. The
strikers made gains here during the
day and their prospects for further
accessions at both McKeesport and
Wheeling during the week are very
favorable. The action of the Amalgam-
ated men at Chicago, Joliet and Bay
View in refusing to come out and
their failure to secure any recruits in
the Carnegie group throughout the
Kiskiminetas valley and the big plants
at Youngstown and Columbus, O.,
have been markedly disappointing to
them. They are keeping up the fight,
however, in a spirited manner and
claim that they have strength in re-
serve which will surprise their oppo-
nents. They assert that they have
gained a foothold in the Carnegie
mills in this city and at the time de-
sired the men will come out. They
are pressing their advantages at Mc-
Keesport and Wheeling and their or-
ganizers are still at work in those two
cities.

Appeal for Financial Aid.

An appeal for financial aid has been
made to organized labor and the gen-
eral public and it is expected that the
responses to it will be liberal. The
Amalgamated leaders were not dis-
posed to do much talking. They would
not discuss the desertion of their
Western fellows.

The men who are directing the fight
in the field for the steel corporation
and its constituent companies would
give no indication of their plans for
the future and would only discuss the
situation generally. Their reports
showed that the Carnegie group, South
Chicago, Bay View, Joliet, Youngs-
town, Columbus, the Kiskiminetas val-
ley group, Wellsville and Monessen
were moving along full handed. Bel-
laire, their advisers showed, was bad-
ly crippled, but would be started up
again in the morning. They admitted
the loss of the National Rolling mill
at McKeesport, which they had ex-
pected to hold, and that the Boston
mill and Monongahela steel works at
McKeesport and the Republic and
Elba here were tied up. Their tube
workers at McKeesport and here were
still at work, but menaced by a pos-
sible shortage of material. Their tube
men at Wheeling were out, but the
furnace and coke men there were at
work and their steel men there

showed an inclination to stay
on unless intimidated. They also
claimed that many of their men at
McKeesport desired to work, but were
being terrorized by the disorderly ele-
ment. They also charged that many
of their men were being frightened
from their places at Wheeling and in-
sisted that adequate protection for the
men there would insure continued op-
erations. It was also stated by the
steel officials that Clark's mill here
was moving along with its non-union
crews engaged last week, and that an-
other mill manned by old Amalgam-
ated men had started up at Wellsville,
representing a gain of one there
since Saturday.

Officials of the National Tube com-
pany and Mayor Black clashed over
the question of protection for non-
strikers and property. A large crowd
of strikers assembled around the
works and their pickets intercepted
tube workers on their way to the
mills. There was some excitement
and the mill officers, claiming that
their men were being threatened and
in danger of violence, called on Mayor
Black to clear the streets and protect.
The mayor said that he would only in-
terfere to stop actual rioting and as-
sault. Two other appeals were made
to him later in the morning, but he in-
sisted that there was no danger of an
outbreak.

GOMPERS HOPES FOR PEACE.

Willing to Co-Operate in Any Move-
ment to End the Strike.

Washington, Aug. 13.—President
Gompers of the American Federation
of Labor said that his organization
would use every peaceable means in

its power to assist the Amalgamated
Association in its strike. Personally
he hoped that an amicable adjust-
ment of the trouble might be arranged
and expressed his willingness to co-
operate in any effort to bring about a
settlement of the conflict. He de-
clined to discuss further the attitude
of the American Federation towards
the strike and refused to say whether
a meeting of the Federation's execu-
tive council would be called to con-
sider the strike situation.

TO TEST KOCH'S THEORY.

T. L. Monson of Colorado Offers Him-
self as a Subject.

Denver, Aug. 13.—In view of the in-
terest taken in the question of whether
or not animal tuberculosis can be
communicated to human beings, T. L.
Monson, state dairy commissioner of
Colorado, offered himself as a subject
for a thorough test of the matter pro-
vided a suitable annuity for his fam-
ily is assured in case of fatal results.
Mr. Monson has made a study of the
matter and is a strong believer in Dr.
Koch's theory.

Will Fight Cracker Trust.

St. Louis, Aug. 13.—Representatives
of 115 of the largest independent
cracker factories will meet in St.
Louis the last week of September to
form an association similar to that of
the wholesale grocers, their purpose
being to fight the National Biscuit
company, known as the cracker trust,
collectively and throughout all parts
of the United States.

LETTER OF COMMENDATION.

Navy Department Praises the Peking
Legation Defenders.

Washington, Aug. 13.—The acting
secretary of the navy, Mr. Hackett,
has sent to Captain N. H. Hall, who
commanded the legion guard at
Peking during a part of the critical
crisis there, a letter of commendation
for the heroic services of those under
his command during the trying cir-
cumstances. The department had pre-
viously sent a letter of commendation
to Captain Myers, the senior officer in
command, but who gave way to Cap-
tain Hall, but at that time he was un-
der charges made by officials of the
American legation relative to his
conduct during the siege. A court of
inquiry, however, fully exonerated
Captain Hall.

THE INVADER WINS.

Second Race in the International Se-
ries Goes to the Challenger.

Chicago, Aug. 13.—In a 12-knot
breeze and a smooth sea invader, the
Royal Canadian Yacht club's chal-
lenger, won the second race of the
international series for the Canada's
cup, almost as easily as the defender,
the Detroit Boat club's Cadillac, won
the first race last Saturday.

Invader gained 4 mins., 27 secs., on
what was intended to be a beat to
windward of nine nautical miles, but
which, by reason of the wind hauling
before the yachts had made two miles
to weather, became a close-hauled
reach, and on the run home, off the
wind, the challenger added nearly 2
minutes more to her lead.

No Change in San Francisco Strike.

San Francisco, Aug. 13.—There is
no material change in the strike situ-
ation here. Efforts at conciliation are
still being made and the importance
of effecting a speedy and peaceful set-
tlement of the trouble was discussed
at a mass meeting called by the Fed-
eration of Improvement Clubs. Sev-
eral conferences of labor leaders were
held during the day.

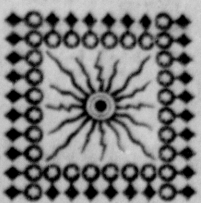

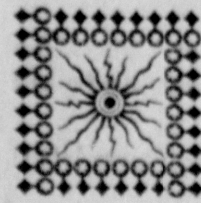

Fatal Battle Occurs in a Church.

London, Aug. 13.—"A murder result-
ing from a vendetta of 20 years' dura-
tion," says a dispatch to The Daily
Mail from Vienna, "occurred in a
church at Obott Sunday. A general
fight ensued in the church between
the respective partisans with the re-
sult that seven persons were killed
and twenty-three wounded."

ADMIRAL JOHNSON SELECTED.

Will Succeed Sampson as Comman-
dant of the Boston Navyyard.

Washington, Aug. 13.—The navy de-
partment has selected Rear Admiral
Mortimer L. Johnson, now in com-
mand at the Port Royal station, to
succeed Admiral Sampson in com-
mand of the Boston navyyard when
the latter officer shall retire. The for-
mal appointment has not been made,
as it is not known how soon Admiral
Sampson may wish to be relieved, or
whether he will wait until his retire-
ment from the service next February.
However, it is usual when the retire-
ment of an officer is ahead to look
about for those available to succeed
him, and this led the department
some weeks ago to determine upon
Admiral Johnson. It is stated that
the action of the navy department
has no connection with the Schley
court of inquiry. Officials of the de-
partment were unable to say whether
Admiral Sampson would be summoned
as a witness or would appear other-
wise before the court, although it was
said to be altogether probable that
he would be among the witnesses.

TWEEN VENEZUELA AND

NO NEWS AT WASHINGTON

Situation in South America Charac-
terized as Most Bewildering—State
Department Authorizes Mr. Russell
to Use His Good Offices—Navy De-
partment Will Send the Iowa In-
stead of the Wisconsin.

Willemstad, Curacao, Aug. 13.—The
Colombian legation left Caracas dur-
ing the day.

Washington, Aug. 13.—Mr. Heran,
the Colombian charge d'affaires at
Washington, is still in official igno-
rance of the momentous events which,
according to the press reports, are
transpiring on the Isthmus of Pana-
ma and along the Venezuelan border.
He attributes his lack of information
to a break in cable communication
with his country, the line from Buena
Ventura north having been reported to
be in very bad working order.

Mr. Heran characterized the situa-
tion in the South as most bewildering.
The official advice concerning the
probable withdrawal of the Colombian
minister from Venezuela he regards
as significant, though he points out
that the report distinctly stated that
Senor Rico, the minister there, had
not demanded, nor had he been pre-
sented, with his passports, and thus
the matter has been robbed of the
seriousness which would have been
given by a step of this sort.

The state department has author-
ized the American charge d'affaires at
Caracas, Venezuela, to use his good
offices for Colombia in case the Co-
lombian minister at the Venezuelan
capital leaves that country. The state
department has no information as to
whether the Colombian minister has
withdrawn from Venezuela, or
whether Mr. Russell is fulfilling this
temporary duty.

The navy department has now defi-
nitely determined to make use of the
battleship Iowa, instead of the Wis-
consin, for use on the Pacific side of
the isthmus in case affairs become
serious there.

PREPARING TO LEAVE.

Gunboat Machias Taking on Supplies
and Ammunition.

Norfolk, Va., Aug. 13.—The gunboat
Machias, en route for Colon, has been
loading coal, provisions and ammuni-
tion in Hampton Roads since Satur-
day. A large part of the supplies came
from the Brooklyn navyyard and a
great deal of the ammunition was pre-
pared at the St. Helena magazine here.
The vessel is likely to sail at any
moment. She will carry a full comple-
ment of men. A number of graduated
apprentices from the training ship
Lancaster, now in port, have been
transferred to the Machias. It is not
probable that the boat will put in at
any port between here and her des-
tination.

NEW LAKE FLEET.

National Transportation Company Or-
ganized at Syracuse, N. Y.

Syracuse, N. Y., Aug. 13.—The plan
of organizing a company to carry

freight over the Great Lakes has been
completed in this city and it will be
at once incorporated in New Jersey.
The new company will be a \$2,500,000
corporation and will be known as the
National Transportation company. Con-
tracts for the fleet of vessels have
been let to the American Shipping
company and they are to have a ca-
pacity of 27,000 tons. The contract
calls for their completion on March
15, 1902. The builders of the vessels
have plants in Cleveland, Duluth and
at other points along the Great Lakes.
Chicago, Duluth and intermediate
points will be the ports visited.

WHEAT YIELD IN FRANCE.

That Country Needs 56,000,000 Bush-
els the Coming Year.

Marseilles, Aug. 13.—France prac-
tically has completed the harvesting
of her wheat at about the time when
it usually begins, and it is no longer
doubtful that there will be a very seri-
ous shortage. It is the firm belief in
some quarters that France will have
to become again an importing nation
of this commodity and the country
will have to look abroad during the
coming year for about 56,000,000 bush-
els. About 20,000,000 bushels of soft
wheat to make up this shortage is
expected to come from the United
States, provided prices keep slightly
under or on a par with those of Rus-
sian wheat.

WILL OPPOSE HILL.

Former Senator Pettigrew Scores the
New York Politician.

Tacoma, Wash., Aug. 13.—Ex-Senator
Pettigrew of South Dakota will
not support David Bennett Hill for
the presidency of the United States
even if the New York politician is
nominated by the Democratic party.
Mr. Pettigrew, who has just arrived
from his trip to Alaska, made this
statement in no uncertain terms. Hill,
he stated, stands for the same prin-
ciples at the bottom as the Republican
party. In case the New Yorker is
nominated, Mr. Pettigrew says, a
third party will be formed which will
uphold the principles of Bryan.

MILLIONAIRES FOR WAITERS.

Wealthy Residents of Spokane Take
the Places of Strikers.

Spokane, Wash., Aug. 13.—Four
Spokane millionaires acted as "hash
slingers" during the evening at Hotel
Spokane. George Macauley, the largest
stockholder in and manager of the
big Cariboo mine at Camp McKinney,
B. C.; Frank O'Connor, stockholder
and manager of the Washington Wa-
ter Power and Street Railway com-
pany; S. P. Donnelly, the largest
stockholder in and manager of the
Weber mine at Lake View, Ida., and
William Norman, proprietor of Hotel
Spokane, formed the galaxy of waiters
that replaced in an emergency the
regular waiters of the big hotel, who
had struck for the removal of a new-
ly appointed steward on the grounds
of low personal character.

The diningroom was temporarily
closed, but 50 regular patrons were
served by the local millionaires, who
are interested in the hotel.

The steward claims that the waiters
object to his fight against a prevalent
tipping system. Negro help has been
wired to at Portland and is expected
during the day.

Can Trust to Dismantle a Plant.

Youngstown, O., Aug. 13.—The of-
ficial announcement was made here
that the Youngstown plant of the
American Can company would be dis-
mantled and the machinery shipped
to other plants of the concern. These
works employed 75 hands.

Unionists Would Reduce Their Representation in Parliament.

London, Aug. 13.—In the course of their speeches Saturday at a Unionist demonstration at Blenheim palace Mr. Balfour and Mr. Chamberlain alluded to the necessity confronting parliament of taking some measures to abate Nationalist obstruction in the house of commons and referred significantly to the over representation of Ireland in parliament. Mr. Monson has made a study of the matter and is a strong believer in Dr. Koch's theory.

Will Fight Cracker Trust.

St. Louis, Aug. 13.—Representatives of 115 of the largest independent cracker factories will meet in St. Louis the last week of September to form an association similar to that of the wholesale grocers, their purpose being to fight the National Biscuit company, known as the cracker trust, collectively and throughout all parts of the United States.

LETTER OF COMMENDATION.

Navy Department Praises the Peking Legation Defenders.

Washington, Aug. 13.—The acting secretary of the navy, Mr. Hackett, has sent to Captain N. H. Hall, who commanded the legation guard at Peking during a part of the critical crisis there, a letter of commendation for the heroic services of those under his command during the trying circumstances. The department had previously sent a letter of commendation to Captain Myers, the senior officer in command, but who gave way to Captain Hall, but at that time he was under charges made by officials of the American legation relative to his course during the siege. A court of inquiry, however, fully exonerated Captain Hall.

THE INVADER WINS.

Second Race in the International Series Goes to the Challenger.

Chicago, Aug. 13.—In a 12-knot breeze and a smooth sea Invader, the Royal Canadian Yacht club's challenger, won the second race of the International series for the Canada's cup, almost as easily as the defender, the Detroit Boat club's Cadillac, won the first race last Saturday.

Invader gained 4 mins., 27 secs., on what was intended to be a beat to windward of nine nautical miles, but which, by reason of the wind hauling before the yachts had made two miles to weather, became a close-hauled reach, and on the run home, off the wind, the challenger added nearly 2 minutes more to her lead.

No Change in San Francisco Strike.

San Francisco, Aug. 13.—There is no material change in the strike situation here. Efforts at conciliation are still being made and the importance of effecting a speedy and peaceful settlement of the trouble was discussed at a mass meeting called by the Federation of Improvement Clubs. Several conferences of labor leaders were held during the day.

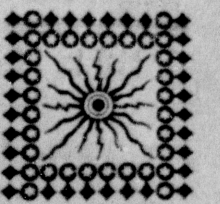

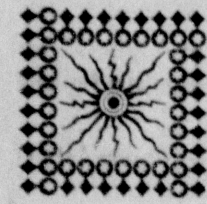

Fatal Battle Occurs in a Church.

London, Aug. 13.—"A murder resulting from a vendetta of 20 years' duration," says a dispatch to The Daily Mail from Vienna, "occurred in a church at Obotli Sunday. A general fight ensued in the church between the respective partisans with the result that seven persons were killed and twenty-three wounded."

ADMIRAL JOHNSON SELECTED.

Will Succeed Sampson as Commander of the Boston Navyyard.

Washington, Aug. 13.—The navy department has selected Rear Admiral Mortimer L. Johnson, now in command at the Port Royal station, to succeed Admiral Sampson in command of the Boston navyyard when the latter officer shall retire. The formal appointment has not been made, as it is not known how soon Admiral Sampson may wish to be relieved, or whether he will wait until his retirement from the service next February. However, it is usual when the retirement of an officer is ahead to look about for those available to succeed him, and this led the department some weeks ago to determine upon Admiral Johnson. It is stated that the action of the navy department has no connection with the Schley court of inquiry. Officials of the department were unable to say whether Admiral Sampson would be summoned as a witness or would appear otherwise before the court, although it was said to be altogether probable that he would be among the witnesses.

NO NEWS AT WASHINGTON

Situation in South America Characterized as Most Bewildering—State Department Authorizes Mr. Russell to Use His Good Offices—Navy Department Will Send the Iowa Instead of the Wisconsin.

Willemstad, Curacao, Aug. 13.—The Colombian legation left Caracas during the day.

Washington, Aug. 13.—Mr. Heran, the Colombian charge d'affaires at Washington, is still in official ignorance of the momentous events which, according to the press reports, are transpiring on the Isthmus of Panama and along the Venezuelan border. He attributes his lack of information to a break in cable communication with his country, the line from Buena Ventura north having been reported to be in very bad working order.

Mr. Heran characterized the situation in the South as most bewildering. The official advices concerning the probable withdrawal of the Colombian minister from Venezuela he regards as significant, though he points out that the report distinctly stated that Senor Rico, the minister there, had not demanded, nor had he been presented, with his passports, and thus the matter has been robbed of the seriousness which would have been given it by a step of this sort.

The state department has authorized the American charge d'affaires at Caracas, Venezuela, to use his good offices for Colombia in case the Colombian minister at the Venezuelan capital leaves that country. The state department has no information as to whether the Colombian minister has withdrawn from Venezuela, or whether Mr. Russell is fulfilling this temporary duty.

The navy department has now definitely determined to make use of the battleship Iowa instead of the Wisconsin, for use on the Pacific side of the Isthmus in case affairs become serious there.

PREPARING TO LEAVE.

Gunboat Machias Taking on Supplies and Ammunition.

Norfolk, Va., Aug. 13.—The gunboat Machias, en route for Colon, has been loading coal, provisions and ammunition in Hampton Roads since Saturday. A large part of the supplies came from the Brooklyn navyyard and a great deal of the ammunition was prepared at the St. Helena magazine here. The vessel is likely to sail at any moment. She will carry a full complement of men. A number of graduated apprentices from the training ship Lancaster, now in port, have been transferred to the Machias. It is not probable that the boat will put in at any port between here and her destination.

NEW LAKE FLEET.

National Transportation Company Organized at Syracuse, N. Y.

Syracuse, N. Y., Aug. 13.—The plan of organizing a company to carry

freight over the Great Lakes has been completed in this city and it will be at once incorporated in New Jersey. The new company will be a \$2,500,000 corporation and will be known as the National Transportation company. Contracts for the fleet of vessels have been let to the American Shipping company and they are to have a capacity of 27,000 tons. The contract calls for their completion on March 15, 1902. The builders of the vessels have plants in Cleveland, Duluth and at other points along the Great Lakes. Chicago, Duluth and intermediate points will be the ports visited.

WHEAT YIELD IN FRANCE.

That Country Needs 56,000,000 Bushels the Coming Year.

Marseilles, Aug. 13.—France practically has completed the harvesting of her wheat at about the time when it usually begins, and it is no longer doubtful that there will be a very serious shortage. It is the firm belief in some quarters that France will have to become again an importing nation of this commodity and the country will have to look abroad during the coming year for about 56,000,000 bushels. About 20,000,000 bushels of soft wheat to make up this shortage is expected to come from the United States, provided prices keep slightly under or on a par with those of Russian wheat.

Former Senator Pettigrew Scores the New York Politician.

Tacoma, Wash., Aug. 13.—Ex-Senator Pettigrew of South Dakota will not support David Bennett Hill for the presidency of the United States even if the New York politician is nominated by the Democratic party. Mr. Pettigrew, who has just arrived from his trip to Alaska, made this statement in no uncertain terms. Hill, he stated, stands for the same principles at the bottom as the Republican party. In case the New Yorker is nominated, Mr. Pettigrew says, a third party will be formed which will uphold the principles of *Reverend* MILLIONAIRES FOR WAITERS.

C.; Frank O'Connor, stockholder and manager of the Washington Water Power and Street Railway company; S. P. The diningroom was temporarily closed, but 50 regular patrons were served by the local millionaires, who are interested in the hotel.

The steward claims that the waiters object to his fight against a prevalent tipping system. Negro help has been wired to at Portland and is expected during the day.

A GOVERNMENT DEFEAT

OPPOSITION GAINS A VICTORY IN
THE BRITISH HOUSE OF
COMMONS.

THE IRISH CHEER WILDLY

Proposition to Close Textile Factories
at Noon the Question Under Discus-
sion—Vote Stood 163 to 141—Con-
servatives Have a Plan to Reduce
the Present Irish Representation in
Parliament.

London, Aug. 13.—The government
was defeated in the house of commons
in the course of the debate on the fac-
tory bill. The house supported by 163
to 141 a proposal, opposed by the gov-
ernment, that textile factories should
close at noon instead of at 1 o'clock
p. m. as now.

The opposition and the Irish mem-
bers cheered wildly.
Mr. Ritchie, the home secretary, an-
nounced that the government would
accept the decision.

Timothy Healy, amid laughter, re-
marked that the home secretary had
shown great resignation, but not the
sort of resignation the house wanted.

ARE AFTER THE IRISH.

Unionists Would Reduce Their Repre-
sentation in Parliament.

London, Aug. 13.—In the course of
their speeches Saturday at a Unionist
demonstration at Bismarck palace
Mr. Balfour and Mr. Chamberlain al-
luded to the necessity confronting
parliament of taking some measures
to abate Nationalist obstruction in the
house of commons and referred sig-
nificantly to the over representation
of Ireland in parliament. These hints
have been eagerly seized upon by
Unionists and the Unionist press,
which is publishing letters and articles
explaining how, if Ireland were only
represented in proportion to the other
parts of the United Kingdom, she
would send to the house of commons
about 30 fewer members than at pres-
ent. The idea is gaining ground that
the government meditates making that
the principal business of the next
session and that Ireland will be of-
fered a sort of compensation by the
concession of a more extended system
of local self-government.
A section of the ministerialists has
long urged this reform upon the gov-

ernment, but, until recently, ministers
seemed reluctant to enter upon the
difficult task of redistributing parlia-
mentary representation, which might
precipitate another dissolution.

A BIG WEEK'S WORK.

Kitchener Sends in the Largest Re-
turn He Has Yet Had.
London, Aug. 13.—In a long dis-
patch reporting the operations of
various columns Lord Kitchener says:
"I am glad to be able to send you
the largest return I have yet had for
one week. Since Aug. 5 the columns
report 39 Boers killed, 20 wounded—
including Commandant Moll, danger-
ously—685 prisoners, including Wol-
marans, late chairman of the first
volksraad; 85 surrenders, including
Commandant de Villiers, and the cap-
ture of 24,400 rounds of ammunition,
754 wagons, 5,580 horses and large
quantities of stock. Most of the cap-
tures were made in Orange River Col-
ony."

In the course of a description of the
operations Lord Kitchener says that
General French in Cape Colony is
"gradually driving the enemy's scat-
tered bands northward."

SEVERAL ARRESTS PROBABLE.

Dying Man Confesses to Helping Kill
a Fellow Workman.

Middletown, O., Aug. 13.—Edward
Grossman of Manchester, Mich., who
met his death on April 31 last, was
supposed to have been struck by a
train.

During the day a man known as
Medler, who is dying from consumption
in a Cincinnati hospital, made a
statement that Grossman was working
in a paper mill at Franklin O., and in-
curred the enmity of other employees,
who placed a rope about his neck,
raised and lowered him from a beam
and finally jerked his head up against
the iron shafting, fracturing his skull.
Grossman was then placed on the rail-
road tracks to cover up the crime.
Several arrests are probable.

Race Goes to the Columbia.

Newport, R. I., Aug. 13.—The Con-
stitution covered the triangular course

allowance by about 20 seconds.

NOW FAIRLY LAUNCHED

STRUGGLE BETWEEN THE TRUST
AND STEEL WORKERS UN-
DER FULL SWING.

ADVANTAGE WITH FORMER

Cut Fourteen Thousand Additional
Men Obey President Shaffer's Or-
der—Total Number Now Out Is
About Sixty Thousand—Strikers
Make Gains During the Day With
Prospects of Further Accessions.

Pittsburg, Aug. 13.—The struggle
for mastery between manufacturers
and men in the steel industry is now
fairly launched and on the first show
of strength advantage is with the for-
mer. The general strike order issued
by President Shaffer of the Amalgam-
ated Association has so far been ob-
eyed by only about 14,000 men, ac-
cording to the best figures obtainable
here. The first two preliminary calls
were answered by about 45,000 men,
so that the total number now out is
in the neighborhood of 60,000. The
strikers made gains here during the
day and their prospects for further
accessions at both McKeesport and
Wheeling during the week are very
favorable. The action of the Amalgam-
ated men at Chicago, Joliet and Bay
View in refusing to come out and
their failure to secure any recruits in
the Carnegie group throughout the
Kiskiminetas valley and the big plants
at Youngstown and Columbus, O.,
have been markedly disappointing to
them. They are keeping up the fight,
however, in a spirited manner and
claim that they have strength in re-
serve which will surprise their oppo-
nents. They assert that they have
gained a foothold in the Carnegie
mills in this city and at the time de-
sired the men will come out. They
are pressing their advantages at Mc-
Keesport and Wheeling and their or-
ganizers are still at work in those two
cities.

Appeal for Financial Aid.

An appeal for financial aid has been
made to organized labor and the gen-
eral public and it is expected that the
responses to it will be liberal. The
Amalgamated leaders were not dis-
posed to do much talking. They would
not discuss the desertion of their
Western fellows.

The men who are directing the fight
in the field for the steel corporation
and its constituent companies would
give no indication of their plans for
the future and would only discuss the
situation generally. Their reports
showed that the Carnegie group, South
Chicago, Bay View, Joliet, Youngs-
town, Columbus, the Kiskiminetas val-
ley group, Wellsville and Monessen
were moving along full handed. Bel-
laire, their advisers showed, was bad-
ly crippled, but would be started up
again in the morning. They admitted
the loss of the National Rolling mill
at McKeesport, which they had ex-
pected to hold, and that the Boston
mill and Monongahela steel works at
McKeesport and the Republic and
Elba here were tied up. Their tube
workers at McKeesport and here were
still at work, but menaced by a pos-
sible shortage of material. Their tube
men at Wheeling were out, but the
furnace and coke men there were at
work and their steel men there

Showed an Inclination to Stay

on unless intimidated. They also
claimed that many of their men at
McKeesport desired to work, but were
being terrorized by the disorderly el-
ement. They also charged that many
of their men were being frightened
from their places at Wheeling and in-
sisted that adequate protection for the
men there would insure continued op-
erations. It was also stated by the
steel officials that Clark's mill here
was moving along with its non-union
crews engaged last week, and that an-
other mill manned by old Amalgam-
ated men had started up at Well-
sville, representing a gain of one there
since Saturday.

Officials of the National Tube com-
pany and Mayor Black clashed over
the question of protection for non-
strikers and property. A large crowd
of strikers assembled around the
works and their pickets intercepted
tube workers on their way to the
mills. There was some excitement
and the mill officers, claiming that
their men were being threatened and
in danger of violence, called on Mayor
Black to clear the streets and protect.
The mayor said that he would only in-
terfere to stop actual rioting and as-
sault. Two other appeals were made
to him later in the morning, but he in-
sisted that there was no danger of an
outbreak.

GOMPERS HOPES FOR PEACE.

Willing to Co-Operate in Any Move-
ment to End the Strike.

Washington, Aug. 13.—President
Gompers of the American Federation
of Labor said that his organization
would use every peaceable means in

its power to assist the Amalgamated
Association in its strike. Personally
he hoped that an amicable adjust-
ment of the trouble might be arranged
and expressed his willingness to co-
operate in any effort to bring about a
settlement of the conflict. He de-
clined to discuss further the attitude
of the American Federation towards
the strike and refused to say whether
a meeting of the Federation's execu-
tive council would be called to con-
sider the strike situation.

TO TEST KOCH'S THEORY.

T. L. Monson of Colorado Offers Him-
self as a Subject.

Denver, Aug. 13.—In view of the in-
terest taken in the question of whether
or not animal tuberculosis can be
communicated to human beings, T. L.
Monson, state dairy commissioner of
Colorado, offered himself as a subject
for a thorough test of the matter pro-
vided a suitable annuity for his fam-
ily is assured in case of fatal results.
Mr. Monson has made a study of the
matter and is a strong believer in Dr.
Koch's theory.

Will Fight Cracker Trust.

St. Louis, Aug. 13.—Representatives
of 115 of the largest independent
cracker factories will meet in St. Louis
the last week of September to form
an association similar to that of the
wholesale grocers, their purpose
being to fight the National Biscuit
company, known as the cracker trust,
collectively and throughout all parts
of the United States.

LETTER OF COMMENDATION.

Navy Department Praises the Peking
Legation Defenders.

Washington, Aug. 13.—The acting
secretary of the navy, Mr. Hackett,
has sent to Captain N. H. Hall, who
commanded the legation guard at
Peking during a part of the critical
crisis there, a letter of commendation
for the heroic services of those under
his command during the trying cir-
cumstances. The department had pre-
viously sent a letter of commendation
to Captain Myers, the senior officer in
command, but who gave way to Cap-
tain Hall, but at that time he was un-
der charges made by officials of the
American legation relative to his
course during the siege. A court of
inquiry, however, fully exonerated
Captain Hall.

THE INVADER WINS.

Second Race in the International Se-
ries Goes to the Challenger.

Chicago, Aug. 13.—In a 12-knot
breeze and a smooth sea Invader, the
Royal Canadian Yacht club's chal-
lenger, won the second race of the
international series for the Canada's
cup, almost as easily as the defender,
the Detroit Boat club's Cadillac, won
the first race last Saturday.

Invader gained 4 mins., 27 secs., on
what was intended to be a beat to
windward of nine nautical miles, but
which, by reason of the wind hauling
before the yachts had made two miles
to weather, became a close-hauled
reach, and on the run home, off the
wind, the challenger added nearly 2
minutes more to her lead.

No Change in San Francisco Strike.

San Francisco, Aug. 13.—There is
no material change in the strike sit-
uation here. Efforts at conciliation are
still being made and the importance
of effecting a speedy and peaceful set-
tlement of the trouble was discussed
at a mass meeting called by the Fed-
eration of Improvement Clubs. Sev-
eral conferences of labor leaders were
held during the day.

Mail from Vienna, "occurred in a

fight ensued in the church between the
respective partisans with the re-
sult that seven persons were killed

ADMIRAL JOHNSON SELECTED.

Will Succeed Sampson as Comman-
dant of the Boston Navyyard.

Washington, Aug. 13.—The navy de-
partment has selected Rear Admiral
Mortimer L. Johnson, now in com-
mand at the Port Royal station, to
succeed Admiral Sampson in com-
mand of the Boston navyyard when
the latter officer shall retire. The for-
mal appointment has not been made,
as it is not known how soon Admiral
Sampson may wish to be relieved, or
whether he will wait until his retire-
ment from the service next February.
However, it is usual when the retire-
ment of an officer is ahead to look
about for those available to succeed
him, and this led the department
some weeks ago to determine upon
Admiral Johnson. It is stated that
the action of the navy department
has no connection with the Schley
court of inquiry. Officials of the de-
partment were unable to say whether
Admiral Sampson would be summoned

wise before the court, although it was
said to be altogether probable that
he would be among the witnesses.

GAME IS PLENTIFUL.

State Game Warden Fullerton Gives Out Some Facts That Will Interest Nimrods of Minnesota.

Game Warden Fullerton has been interviewed on the prospect for hunting game after the season opens up this year and he has the following to say:

"The open winter permitted the quail and chicken to come through in larger numbers than have appeared for at least ten years. The spring was not hot enough to drown the young birds and the dry, hot July we've just survived has made the birds grow rapidly. The shooting will be remarkably fine when the season opens Sept. 1.

"The early harvest this year will help the hunters in one respect and in another respect it won't. That is, the grain won't be standing as long as usual and after it's cut the birds can't hide so well among the short stubble. But, on the other hand, the farmers are likely to get to plowing soon after the seasons opens, and that, of course, will drive the birds out of the fields into the brush and meadows.

"Ducks will be numerous also Sept. 1, because of the law against spring shooting. The law took effect two years ago, but last season the result was hardly noticeable. This year an extraordinary quantity of native, or local ducks, you might call them have been seen.

"The parent birds were not disturbed during the spring for two seasons, so they have resumed their nesting in this state. The new law is a fine thing, and sportsmen will agree that we needed just such a regulation as a duck state.

"I can say, too, that we're not going to let all this splendid sport be spoiled by pot hunters shooting out of season. Lawbreakers will find that it doesn't pay to sneak in ahead of honest citizens."

CURBSTONE CHAT.

Howard Paine: The bicycle roads to Gull Lake are in good condition now—better than they have ever been.

A. V. Snyder: I wish there was some way to get THE DAILY DISPATCH to the lake. We miss it very much. We will all be in the last of the week.

M. R. Swartz: The base ball diamond at the park is in excellent shape. The management has hauled a lot of sand there and it will be all rolled and leveled.

James George: There may have been ten thousand people at the Waseca-Litchfield game in St. Paul but that was nothing to the twenty thousand that attended the game at Little Falls.

Contractor Z. LeBlanc: My experience in sidewalk laying has led me to observe that in numerous cities there is a great tendency for merchants to more or less obstruct the sidewalks with signs, dry goods boxes, barrels, bicycle racks, etc.; in some cases even reserving part of the sidewalk for a depository of rubbish. Nothing mars the appearance of a city or gives it a more slovenly appearance than to have its sidewalks encumbered with all these unnecessary articles, and my opinion is that this city could be greatly improved and made more pleasant and attractive if more care be taken in this line.

NEW REAL ESTATE FIRM IN BRAINERD.

Two Outsiders Have Decided That This City Is About The Right Thing

HAVE MUCH LAND LISTED HERE
N. K. McFarland and N. M. Wooley Are Members of the New Firm

A new real estate firm has been organized and will make its headquarters in this city. The gentlemen interested are N. K. McFarland, of Staples, and N. M. Wooley, of Sleepy Eye.

Both gentlemen are now engaged in the real estate business in their respective towns and they have had wide experience in this line. Mr. McFarland has some landed interests in Crow Wing and Cass counties and besides this the gentlemen have listed a large amount of land in all the counties adjoining Crow Wing. They will carry on an extensive loan business in connection with real estate operations.

The gentlemen were in the city yesterday afternoon looking over several different offices with a view to renting. The most desirable were the three rooms over the Nimmo drug store and in all probability they will take these rooms.

The firm will be ready for business in a short time. The firm will be styled McFarland & Wooley.

ON THE DIAMOND.

Orth, Brainerd's crack pitcher, had an opportunity to go to Park Rapids to pitch for that team in a game with Akeley this afternoon. He could not get away or he might have pitched the game for them.

Brainerd will in all probability play the Duluth Fashions, the Toozes or some other good team next Sunday on the home grounds. Manager Lagerquist will know definitely by tomorrow.

Dr. Ward has written Brainerd to look out for a gang of ragamuffins on Aug. 23. The Elks team will have a blind man for a pitcher, a deaf and dumb man for a catcher and a one-armed man for first basemen, while the base running will be done by a legless Elk. The personnel of the team will be something like this: Barden, McKenzie, Wenzel, Koons, Ward, Thielman, Coates, McNaughton and Ross.—St. Cloud Journal-Press.

St. Cloud lost to Willmar in the game Sunday and the Journal-Press roasts St. Cloud fans for being unpatriotic in rooting for the Willmar team. A lot of soreheads that would root for an out-of-town team and that too on their home grounds ought to be charged double admission.

The Daily Transcript gives a very fair write-up of the game Sunday. Regarding the strength of their team the write-up says:

The line-up of the home team, in the opinion of some of the players, was one of the strongest of the season. The Brainerd team was also a strong aggregation, but it could be clearly seen throughout the game that the home team was playing with bad luck.

A short stay in Brainerd Monday noon developed the fact there was a very large amount of money in circulation in that city. Part of it had a familiar look, and inquiry brought the information that some Brainerd men came to Little Falls with a ball team and resented the bluffs of Little Falls sports who thought that a man from Royalton ever could throw a ball.—Little Falls Transcript.

THROUGH THE CONFESSIONAL.

An Anderson (Ind.) Jeweler Recovers \$1,500 Worth of Diamonds.

Indianapolis, Aug. 9.—A special from Anderson, Ind., says: Three weeks ago the jewelry store of J. M. Washburn was robbed of \$1,500 worth of diamonds. The stones were in the show window and the thief entered the store at noon and took them out. Mr. Washburn was this week notified by the pastor of St. Mary's Catholic church at Chicago that the diamonds were in his possession. The thief went to the Chicago priest a few days ago and while in the confessional told the story of the robbery and turned over the stolen property to the priest, who immediately notified Mr. Washburn.

STOP PAYING RENT.

A chance to secure a delightful home of your own located where you want it and built as you want it, for same money you are now paying for rent.

Announcement Extraordinary.

I wish to announce to the citizens of Brainerd that I have completed arrangements whereby I am now in position to build houses and cottages in any part of the city to suit my customers, and sell them on a small cash payment the balance of purchase price and interest payable in monthly payments that amount to no more than ordinary rent.

This plan places a new up-to-date home within the reach of every thrifty family in Brainerd. More than that, it affords every family an opportunity to acquire a home for nothing, as the amount paid as rent pays for the home. Prompt action is necessary in order to complete houses this fall. See me at your earliest convenience. First come, first served. I can show plans of some very nice modern houses and cottages of neat and attractive designs.

GAME IS PLENTIFUL.

State Game Warden Fullerton Gives Out Some Facts That Will Interest Nimrods of Minnesota.

Game Warden Fullerton has been interviewed on the prospect for hunting game after the season opens up this year and he has the following to say:

"The open winter permitted the quail and chicken to come through in larger numbers than have appeared for at least ten years. The spring was not hot enough to drown the young birds and the dry, hot July we've just survived has made the birds grow rapidly. The shooting will be remarkably fine when the season opens Sept. 1.

"The early harvest this year will help the hunters in one respect and in another respect it won't. That is, the grain won't be standing as long as usual and after it's cut the birds can't hide so well among the short stubble. But, on the other hand, the farmers are likely to get to plowing soon after the seasons opens, and that, of course, will drive the birds out of the fields into the brush and meadows.

"Ducks will be numerous also Sept. 1, because of the law against spring shooting. The law took effect two years ago, but last season the result was hardly noticeable. This year an extraordinary quantity of native, or local ducks, you might call them have been seen.

"The parent birds were not disturbed during the spring for two seasons, so they have resumed their nesting in this state. The new law is a fine thing, and sportsmen will agree that we needed just such a regulation as a duck state.

"I can say, too, that we're not going to let all this splendid sport be spoiled by pot hunters shooting out of season. Lawbreakers will find that it doesn't pay to sneak in ahead of honest citizens."

CURBSTONE CHAT.

Howard Paine: The bicycle roads to Gull Lake are in good condition now—better than they have ever been.

A. V. Snyder: I wish there was some way to get THE DAILY DISPATCH to the lake. We miss it very much. We will all be in the last of the week.

GAME IS PLENTIFUL.

State Game Warden Fullerton Gives Out Some Facts That Will Interest Nimrods of Minnesota.

Game Warden Fullerton has been interviewed on the prospect for hunting game after the season opens up this year and he has the following to say:

"The open winter permitted the quail and chicken to come through in larger numbers than have appeared for at least ten years. The spring was not hot enough to drown the young birds and the dry, hot July we've just survived has made the birds grow rapidly. The shooting will be remarkably fine when the season opens Sept. 1.

"The early harvest this year will help the hunters in one respect and in another respect it won't. That is, the grain won't be standing as long as usual and after it's cut the birds can't hide so well among the short stubble. But, on the other hand, the farmers are likely to get to plowing soon after the seasons opens, and that, of course, will drive the birds out of the fields into the brush and meadows.

"Ducks will be numerous also Sept. 1, because of the law against spring shooting. The law took effect two years ago, but last season the result was hardly noticeable. This year an extraordinary quantity of native, or local ducks, you might call them have been seen.

"The parent birds were not disturbed during the spring for two seasons, so they have resumed their nesting in this state. The new law is a fine thing, and sportsmen will agree that we needed just such a regulation as a duck state.

"I can say, too, that we're not going to let all this splendid sport be spoiled by pot hunters shooting out of season. Lawbreakers will find that it does not pay to sneak in ahead of honest citizens."

CURBSTONE CHAT.

Howard Paine: The bicycle roads to Gull Lake are in good condition now—better than they have ever been.

A. V. Snyder: I wish there was some way to get THE DAILY DISPATCH to the lake. We miss it very much. We will all be in the last of the week.

M. R. Swartz: The base ball diamond at the park is in excellent shape. The management has hauled a lot of sand there and it will be all rolled and leveled.

James George: There may have been ten thousand people at the Waseca-Litchfield game in St. Paul but that was nothing to the twenty thousand that attended the game at Little Falls.

Contractor Z. LeBlanc: My experience in sidewalk laying has led me to observe that in numerous cities there is a great tendency for merchants to more or less obstruct the sidewalks with signs, dry goods boxes, barrels, bicycle racks, etc.; in some cases even reserving part of the sidewalk for a depository of rubbish. Nothing mars the appearance of a city or gives it a more slovenly appearance than to have its sidewalks encumbered with all these unnecessary articles, and my opinion is that this city could be greatly improved and made more pleasant and attractive if more care be taken in this line.

NEW REAL ESTATE FIRM IN BRAINERD.

Two Outsiders Have Decided That This City Is About The Right Thing

HAVE MUCH LAND LISTED HERE

N. K. McFarland and N. M. Wooley Are Members of the New Firm

A new real estate firm has been organized and will make its headquarters in this city. The gentlemen interested are N. K. McFarland, of Staples, and N. M. Wooley, of Sleepy Eye.

Both gentlemen are now engaged in the real estate business in their respective towns and they have had wide experience in this line. Mr. McFarland has some landed interests in Crow Wing and Cass counties and besides this the gentlemen have listed a large amount of land in all the counties adjoining Crow Wing. They will carry on an extensive loan business in connection with real estate operations.

The gentlemen were in the city yesterday afternoon looking over several different offices with a view to renting. The most desirable were the three rooms over the Nimmo drug store and in all probability they will take these rooms.

The firm will be ready for business in a short time. The firm will be styled McFarland & Wooley.

ON THE DIAMOND.

Orth, Brainerd's crack pitcher, had an opportunity to go to Park Rapids to pitch for that team in a game with Akeley this-afternoon. He could not get away or he might have pitched the game for them.

Brainerd will in all probability play the Duluth Fashions, the Toozes or some other good team next Sunday on the home grounds. Manager Lagerquist will know definitely by tomorrow.

Dr. Ward has written Brainerd to look out for a gang of ragamuffins on Aug. 23. The Elks team will have a blind man for a pitcher, a deaf and dumb man for a catcher and a one-armed man for first basemen, while the base running will be done by a legless Elk. The personnel of the team will be something like this: Barden, McKenzie, Wenzel, Koons, Ward, Thielman, Coates, McNaughton and Ross.—St. Cloud Journal-Press.

St. Cloud lost to Willmar in the game Sunday and the Journal-Press roasts St. Cloud fans for being unpatriotic in rooting for the Willmar team. A lot of soreheads that would root for an out-of-town team and that too on their home grounds ought to be charged double admission.

The Daily Transcript gives a very fair write-up of the game Sunday. Regarding the strength of their team the write-up says:

The line-up of the home team, in the opinion of some of the players, was one of the strongest of the season. The Brainerd team was also a strong aggregation, but it could be clearly seen throughout the game that the home team was playing with bad luck.

A short stay in Brainerd Monday noon developed the fact there was a very large amount of money in circulation in that city. Part of it had a familiar look, and inquiry brought the information that some Brainerd men came to Little Falls with a ball team and resented the bluffs of Little Falls sports who thought that a man from Royaltown ever could throw a ball.—Little Falls Transcript.

THROUGH THE CONFESSIONAL.

An Anderson (Ind.) Jeweler Recovers \$1,500 Worth of Diamonds.

Indianapolis, Aug. 9.—A special from Anderson, Ind., says: Three weeks ago the jewelry store of J. M. Washburn was robbed of \$1,500 worth of diamonds. The stones were in the show window and the thief entered the store at noon and took them out. Mr. Washburn was this week notified by the pastor of St. Mary's Catholic church at Chicago that the diamonds were in his possession. The thief went to the Chicago priest a few days ago and while in the confessional told the story of the robbery and turned over the stolen property to the priest, who immediately notified Mr. Washburn.

STOP PAYING RENT.

A chance to secure a delightful home of your own located where you want it and built as you want it, for same money you are now paying for rent.

Announcement Extraordinary.

I wish to announce to the citizens of Brainerd that I have completed arrangements whereby I am now in position to build houses and cottages in any part of the city to suit my customers, and sell them on a small cash payment the balance of purchase price and interest payable in monthly payments that amount to no more than ordinary rent.

This plan places a new up-to-date home within the reach of every thrifty family in Brainerd. More than that, it affords every family an opportunity to acquire a home for nothing, as the amount paid as rent pays for the home. Prompt action is necessary in order to complete houses this fall. See me at your earliest convenience. First come, first served. I can show plans of some very nice modern houses and cottages of neat and attractive designs.

REAL ESTATE LOANS.

IF you are going to build, and want a loan, you have a mortgage to renew, you want to borrow for any purpose.

Consult **P. B. NETTLETON.**

Loans Made for 3, 5, 7, 9 and 12 Year Terms.

I represent the only institution in the state that loans on monthly payments at a reasonable rate of interest, giving the borrower a definite contract as to number of payments to be made. All or a part of a loan may be paid at any time after two years. Loans placed on this plan are not foreclosed because they are easily and systematically paid off.

Houses & Lots CASH BOUGHT FOR AND SOLD ON TIME.

Will buy a few houses and lots for Cash. Sell them for small cash payment and let your rent money do the rest. Parties having houses and lots for sale should inform me. Those wanting to buy on the easiest terms ever offered should see me. A few new and older houses now for sale. For particulars call on or address

MAY BRING SUIT AGAINST POLICEMEN.

Frank O'Neil Claims That He Was Roughly Handled on Way To Jail.

HAS ENGAGED AN ATTORNEY.

He Plead Not Guilty To the Charge Of Assault in Third Degree.

Late yesterday afternoon the hearing was had in the cases against Frank O'Neil, Andrew Johnson, John Larson and John McKinney. Two of the men plead guilty to the charges against them and were fined but the other two men plead not guilty and their hearings set at a later date.

The first case to be called was that against Frank O'Neil. The charge which had been preferred against him was assault in the third degree. This is not a penitentiary offense but is a misdemeanor, punishable by a fine and sentence if the court sees fit.

To the charge O'Neil plead not guilty. This was a surprise to some of his friends for it was thought that he would enter a plea of guilty and take the fine. He certainly has confessed to not a few that he was somewhat to blame. He says that he went after something and got the worst of it and it is understood is willing to shake hands with Hurley and bury the hatchet. His case was continued until Thursday, August, 22. He was admitted to bail in the sum of \$100 which was quickly put up.

Andrew Johnson, the man who after Officer Hurley's helmet had fallen off, kicked it and trampled it in the mud was only charged with drunkenness and on pleading guilty was fined only the usual dose of \$7.40.

John McKinney was also allowed to plead to the charge of disorderly conduct. He entered a plea of guilty and was fined \$10 which he paid. He is claimed to have interfered with an officer.

The last man, John Larson, did not think that he had been disorderly and entered a plea of not guilty and his case was continued until Wednesday morning.

There are all kinds of stories in the air and of course O'Neils' friends think he got the worst of it in the deal. It is claimed by a few reputable people who saw O'Neil being taken to jail that he was kicked and slapped in the face and on the head even after the handcuffs were on. As soon as Officers Brockway and Preston arrived on the scene Officer Hurley turned his man over to them as he felt somewhat weak from the effects of the kick. It is claimed that the two men who had him in charge abused him dreadfully on the way to the lockup and that O'Neil will commence suit again them immediately after being rid of the trial he now has on his hands.

It is understood that O'Neil has engaged Judge Fleming and the matter of bringing a suit against Officers Brockway and Preston will be seriously considered.

Didn't Know It Was Loaded.

Julia, the 14-year-old daughter of Mr. and Mrs. Nels K. Bloomberg, of Rail Prairie, was accidentally shot by her brother Sunday. It was another case of "didn't know it was loaded." The boy was playing with a 32-calibre revolver and in some manner the weapon was discharged and the ball struck his sister in the thigh. The unfortunate girl was brought to St. Gabriel's hospital Monday and the bullet removed, and she is now on the road to recovery.—Transcript.

THE AGE LIMIT EXTENDED.

Postmaster Ingersoll Receives Further In- structions Regarding the Required Age for Carriers.

The following communication has been received by the postmaster from the president of the civil service commission at Washington, a perusal of which will show that the limit of the age for carriers has been amended to read 18 to 45 years, instead of 21 to 40:

WASHINGTON, D. C., Aug. 6, 1901.
DEAR SIR:—Referring to the instructions which have been sent you to announce the initial examination for the positions of clerk and carriers in the postoffice service in your city, you are advised that on August 1, 1901, the President amended the age limit for the postoffice service so as to make it uniform for clerks (male and female) and carriers. You will receive applications from persons whose ages are between 18 and 45 years; that is, from persons who will be 18 years of age on or before, or who will not reach their 45th birthday on or before the date of the examination.

COMPROMISE PROPOSITION.

If Same Is Accepted It Is Said That It Will Mean A Big Loss To The Indians.

A Washington special to the Minneapolis Journal says:

"Special Agent Farr has reported to Commissioner Jones a compromise proposition for the settlement of the government's claim against the Scanlon-Gipsow and Cass Lake Lumber companies for green timber cut in their camps last winter. Farr has been in Cass Lake and these camps for a month or more with representatives of the companies reinspecting the green timber with a view to arriving at some basis of settlement satisfactory to the government and the companies, and has just concluded his labors.

Commissioner Jones has not gone into the report to see just what the compromise is, but the main proposition appears to be settlement for the white pine at the rate of \$11 a thousand feet instead of \$12, the price first demanded by Farr. The proposition for settlement is subject to approval by the commissioner. If it is accepted, it will mean a loss of several thousand dollars to the Indians, but it is said the price is higher than could be obtained if the logs were segregated and sold at public sale."

HOT TIME FOR DOGGETS.

Chief Nelson Will in a Few Days Serve Papers on Owners of Dogs who Have Not Paid Licenses.

In a few days now Chief of Police Nelson will start in on his crusade against owners of dogs who have not paid the required licenses provided by the city charter.

Since the notices have been served, as required by the charter, all but about sixty have come in and paid their little mite, but it is understood that the remaining few will fight the thing to the bitter end, claiming that they have already paid a tax on their dogs, and that the collecting of license on this account is unconstitutional.

Funeral this Afternoon.

The remains of the late John Savoie arrived in the city this morning and the funeral services are being held this afternoon at St. Francis church, Father D. W. Lynch officiating. The funeral is under the auspices of Red Cloud Tribe, I. O. R. M., and the tribe turned out in a body.

Interment took place in the Evergreen cemetery. The relatives of the deceased were never heard from although they were written to several times.

SEVENTH STREET TO BE PAVED AT ONCE.

Arnold Granite Company of St. Cloud Will Furnish Stone For the Curb.

COMMISSIONER WEITZEL'S WORK

The City Will Do the Paving This Time Just to Try An Experiment

Walter Arnold, of the Arnold Granite Co., St. Cloud, was a guest in the city yesterday afternoon and closed a deal with the street committee for the curbstone to be used on Seventh street preparatory to paving. A carload of granite will be shipped at once.

The work of paving the street will commence at once under the direction of Street Commissioner Weitzel. He went out in the country today to get the engine to be used in crushing the rock and this work will commence at once.

Nothing will be done to the street until after the curbing is put in but Commissioner Weitzel expects to have a big crew of men at work by Monday next.

The city is trying a new experiment in connection with this improvement. Heretofore the contracts for such improvements have always been let to some contractor but this time the city will act in this capacity and will do its own paving. It is thought that a big saving will be made in expense, but of course it is only an experiment.

Master Mechanic Bean Says Something Must be Done to Keep Men in the City—Scarcity of Houses.

Master Mechanic Bean was very much wrought up this morning when two or three of his best men at the shops walked into the office and tendered their resignations and when asked the reason for this they stated that they could not get houses in the city to live in.

Mr. Bean stated this morning to a representative of THE DISPATCH that it behooved the business men of the city to make a stir in the direction of building houses. Men who want to come here and locate are turning their backs on the city for the reason that they cannot find homes for their families. Houses are needed badly; and houses which would rent for a reasonable amount of money within reach of working men.

The first large tandem compound engine was sent west from the shops this morning. It was a hummer and is to be used for heavy work on the Rocky Mountain division.

Yesterday Frank Larison, road foreman of the N. P. between Mandan and Billings; Howard Curry, road foreman of the N. P. east of Fargo; and Mr. Swan representing Manning Maxwell & Moore, of Chicago called on Master Mechanic Bean at the shops.

Tomorrow is the Picnic Day.

The members of the First Congregational and the First Baptist church are working with a vim to make the event of their annual picnic at Merrifield tomorrow one long to be remembered. The indications are that there will be an unusually large attendance.

Some rare sport will be provided for the members of the Sunday school of both churches. The train will leave at 9 o'clock sharp.

Daily excursions to Buffalo and New York, via the Nickel Plate Road. Through trains to New York City without change. Vestibuled sleepers Chicago to Boston; Dining cars on all trains. WORD FROM MR. FRATER.

He and His Wife are Enjoying their Western Trip Very Much--Writes from Seattle.

The following is part of a letter which was received by A. G. Trommauld yesterday from County Treasurer John T. Frater, who is enjoying a trip to the coast, accompanied by his wife:

"We arrived in Seattle Thursday at 8:38 p. m., 54 hours out of Brainerd; quite a fast run for the distance, 1,852 miles. Had quite warm weather; and Tuesday in eastern Washington it was very hot. The trip has been quite interesting, and all new west of Glendive. We came over some very high hills, and to one who has never seen a mountain it was a revelation. We live in a big country and a man may well be proud of the starry flag that floats over such a country. I find Seattle a bustling city, along a beautiful water front and about as bustling as Chicago. It is very smoky and this morning I can not see across the sound, which in front of the city is quite narrow. Tomorrow we go to the navy yard to see the battle ships Oregon and Wisconsin. I am going to see all I can possibly in this time."

AMUSEMENTS.

One of the most interesting and original plays ever produced in this country will be at the Gardner Hall, Aug. 15.

It is entitled "The Daughter of the Diamond King," and is from the pen of Chas. A. Taylor, the well known dramatic author. The plot is woven about the life of an American girl who is both young and pretty, and daughter of one of the most picturesque characters in the great city of New York, Percy Golden, the African Diamond King. Two of the scenes are laid in the metropolis, and two of them in New England; the characters are drawn from those who move in the smart set, from those who live on the East side, or tread lower Broadway, and from gentle country folk who dwell in New Hampshire hills or way down east. The story is one of delightful simplicity with a tremor of true love that is refreshing; the comedy is bright and natural and relieves the strain of the truly interesting plot which holds the interest of the audience from beginning to end. There

LA BELLE LAURETTE

is no shooting, no murder, yet many stirring scenes; one a wedding in the old country schoolhouse, introducing a chorus of children's voices. All the world loves children, and there are several pretty children with this company who possess dramatic talent and voices that are really wonderful. Then there is the Mad Gras scene introducing the Comedy Clowns—the Lenton Trio—Frank, John, and Kitty, who have exhibited their act before every nation in the world, there is the rehearsal of the village choir introducing a quintette of female singers, the New York Quartette and Miss I. A. Wynn, the Operatic Soloist. The dramatic cast is headed by La Belle Laurette, a popular young star of great beauty and dramatic strength, supported by Mr. W. A. Whitecar, a sterling young actor who needs no introduction. The scenery is by Frank D. Dodge, the costumes by Madame Cooney. The direction of the entire production being under the personal supervision of Mr. Chas. A. Taylor, the author, proprietor, and manager.

Military Organization.

A move is on foot at the Y. M. C. A. to organize a military company to include some of the younger members of the association. Assistant Secretary Simon will be the drill master if enough names can be secured and the boys will meet every week for drill and practice.

It is thought such a move would stimulate an interest in the work being done by the association in this city.

Frank O'Neil Claims That He Was

HAS ENGAGED AN ATTORNEY.

He Plead Not Guilty To the Charge
Of Assault in Third
Degree.

Late yesterday afternoon the hearing was had in the cases against Frank O'Neil, Andrew Johnson, John Larson and John McKenney. Two of the men plead guilty to the charges against them and were fined but the other two men plead not guilty and their hearings set at a later date.

The first case to be called was that against Frank O'Neil. The charge which had been preferred against him was assault in the third degree. This is not a penitentiary offense but is a misdemeanor, punishable by a fine and sentence if the court sees fit.

To the charge O'Neil plead not guilty. This was a surprise to some of his friends for it was thought that he would enter a plea of guilty and take the fine. He certainly has confessed to not a few that he was somewhat to blame. He says that he went after something and got the worst of it and it is understood is willing to shake hands with Hurley and bury the hatchet. His case was continued until Thursday, August, 22. He was admitted to bail in the sum of \$100 which was quickly put up.

Andrew Johnson, the man who after Officer Hurley's helmet had fallen off, kicked it and trampled it in the mud was only charged with drunkenness and on pleading guilty was fined only the usual dose of \$7.40.

John McKenney was also allowed to plead to the charge of disorderly conduct. He entered a plea of guilty and was fined \$10 which he paid. He is claimed to have interfered with an officer.

The last man, John Larson, did not think that he had been disorderly and entered a plea of not guilty and his case was continued until Wednesday morning.

There are all kinds of stories in the air and of course O'Neils' friends think he got the worst of it in the deal. It is claimed by a few reputable people who saw O'Neil being taken to jail that he was kicked and slapped in the face and on the head even after the handcuffs were on. As soon as Officers Brockway and Preston arrived on the scene Officer Hurley turned his man over to them as he felt somewhat weak from the effects of the kick. It is claimed that the two men who had him in charge abused him dreadfully on the way to the lockup and that O'Neil will commence suit again them immediately after being rid of the trial he now has on his hands.

It is understood that O'Neil has engaged Judge Fleming and the matter of bringing a suit against Officers Brockway and Preston will be seriously considered.

Didn't Know It Was Loaded.

Julia, the 14-year-old daughter of Mr. and Mrs. Nels K. Bloomberg, of Rail Prairie, was accidentally shot by her brother Sunday. It was another case of "didn't know it was loaded." The boy was playing with a 32-calibre revolver and in some manner the weapon was discharged and the ball struck his sister in the thigh. The unfortunate girl was brought to St. Gabriel's hospital Monday and the bullet removed, and she is now on the road to recovery.—Transcript.

THE AGE LIMIT EXTENDED.

Postmaster Ingersoll Receives Further Instructions Regarding the Required Age for Carriers.

The following communication has been received by the postmaster from the president of the civil service commission at Washington, a perusal of which will show that the limit of the age for carriers has been amended to read 18 to 45 years, instead of 21 to 40:

WASHINGTON, D. C., Aug. 6, 1901.

DEAR SIR:—Referring to the instructions which have been sent you to announce the initial examination for the positions of clerk and carriers in the postoffice service in your city, you are advised that on August 1, 1901, the President amended the age limit for the postoffice service so as to make it uniform for clerks (male and female) and carriers. You will receive applications from persons whose ages are between 18 and 45 years; that is, from persons who will be 18 years of age on or before, or who will not reach their 45th birthday on or before the date of the examination.

COMPROMISE PROPOSITION.

If Same Is Accepted It Is Said That It Will Mean A Big Loss To The Indians.

A Washington special to the Minneapolis Journal says:

"Special Agent Farr has reported to Commissioner Jones a compromise proposition for the settlement of the government's claim against the Scanlon-Gipson and Cass Lake Lumber companies for green timber cut in their camps last winter. Farr has been in Cass Lake and these camps for a month or more with representatives of the companies inspecting the green timber with a view to arriving at some basis of settlement satisfactory to the government and the companies, and has just concluded his labors.

Commissioner Jones has not gone into the report to see just what the compromise is, but the main proposition appears to be settlement for the white pine at the rate of \$11 a thousand feet instead of \$12, the price first demanded by Farr. The proposition for settlement is subject to approval by the commissioner. If it is accepted, it will mean a loss of several thousand dollars to the Indians, but it is said the price is higher than could be obtained if the logs were segregated and sold at public sale."

HOT TIME FOR DOGGETS.

Chief Nelson Will in a Few Days Serve Papers on Owners of Dogs who Have Not Paid Licenses.

In a few days now Chief of Police Nelson will start in on his crusade against owners of dogs who have not paid the required licenses provided by the city charter.

Since the notices have been served, as required by the charter, all but about sixty have come in and paid their little mite, but it is understood that the remaining few will fight the thing to the bitter end, claiming that they have already paid a tax on their dogs, and that the collecting of license on this account is unconstitutional.

Funeral this Afternoon.

The remains of the late John Savoie arrived in the city this morning and the funeral services are being held this afternoon at St. Francis church. Father D. W. Lynch officiating. The funeral is under the auspices of Red Cloud Tribe, I. O. R. M., and the tribe turned out in a body.

Interment took place in the Evergreen cemetery. The relatives of the deceased were never heard from although they were written to several times.

WASHINGTON, D. C., Aug. 6, 1901.
DEAR SIR:—Referring to the instructions which have been sent you to announce the initial examination for the positions of clerk and carriers in the postoffice service in your city, you are advised that on August 1, 1901, the President amended the age limit for the postoffice service so as to make it uniform for clerks (male and female) and carriers. You will receive applications from persons whose ages are between 18 and 45 years; that is, from persons who will be 18 years of age on or before, or who will not reach their 45th birthday on or before the date of the examination.

COMPROMISE PROPOSITION.

If Same Is Accepted It Is Said That It Will Mean A Big Loss To The Indians.

A Washington special to the Minneapolis Journal says:

"Special Agent Farr has reported to Commissioner Jones a compromise proposition for the settlement of the government's claim against the Scanlon-Gipson and Cass Lake Lumber companies for green timber cut in their camps last winter. Farr has been in Cass Lake and these camps for a month or more with representatives of the companies re-inspecting the green timber with a view to arriving at some basis of settlement satisfactory to the government and the companies, and has just concluded his labors.

Commissioner Jones has not gone into the report to see just what the compromise is, but the main proposition appears to be settlement for the white pine at the rate of \$11 a thousand feet instead of \$12, the price first demanded by Farr. The proposition for settlement is subject to approval by the commissioner. If it is accepted, it will mean a loss of several thousand dollars to the Indians, but it is said the price is higher than could be obtained if the logs were segregated and sold at public sale."

HOT TIME FOR DOGGETS.

Chief Nelson Will in a Few Days Serve Papers on Owners of Dogs who Have Not Paid Licenses.

In a few days now Chief of Police Nelson will start in on his crusade against owners of dogs who have not paid the required licenses provided by the city charter.

Since the notices have been served, as required by the charter, all but about sixty have come in and paid their little mite, but it is understood that the remaining few will fight the thing to the bitter end, claiming that they have already paid a tax on their dogs, and that the collecting of license on this account is unconstitutional.

Funeral this Afternoon.

The remains of the late John Savoie arrived in the city this morning and the funeral services are being held this afternoon at St. Francis church, Father D. W. Lynch officiating. The funeral is under the auspices of Red Cloud Tribe, I. O. R. M., and the tribe turned out in a body.

Interment took place in the Evergreen cemetery. The relatives of the deceased were never heard from although they were written to several times.

SEVENTH STREET TO
BE PAVED AT ONCE.

Arnold Granite Company of St. Cloud Will Furnish Stone For the Curb.

COMMISSIONER WEITZEL'S WORK

The City Will Do the Paving This Time Just to Try An Experiment

Walter Arnold, of the Arnold Granite Co., St. Cloud, was a guest in the city yesterday afternoon and closed a deal with the street committee for the curbstone to be used on Seventh street preparatory to paving. A carload of granite will be shipped at once.

The work of paving the street will commence at once under the direction of Street Commissioner Weitzel. He went out in the country today to get the engine to be used in crushing the rock and this work will commence at once.

Nothing will be done to the street until after the curbing is put in but Commissioner Weitzel expects to have a big crew of men at work by Monday next.

The city is trying a new experiment in connection with this improvement. Heretofore the contracts for such improvements have always been let to some contractor but this time the city will act in this capacity and will do its own paving. It is thought that a big saving will be made in expense, but of course it is only an experiment.

N. P. SHOP GOSSIP.

Master Mechanic Bean Says Something

Must Be Done to Keep Men in the City—Scarcity of Houses.

Master Mechanic Bean was very much wrought up this morning when two or three of his best men at the shops walked into the office and tendered their resignations and when asked the reason for this they stated that they could not get houses in the city to live in.

Mr. Bean stated this morning to a representative of THE DISPATCH that it behooved the business men of the city to make a stir in the direction of building houses. Men who want to come here and locate are turning their backs on the city for the reason that they cannot find homes for their families. Houses are needed badly; and houses which would rent for a reasonable amount of money within reach of working men.

The first large tandem compound engine was sent west from the shops this morning. It was a hummer and is to be used for heavy work on the Rocky Mountain division.

Yesterday Frank Larison, road foreman of the N. P. between Mandan and Billings; Howard Curry, road foreman of the N. P. east of Fargo; and Mr. Swan representing Manning Maxwell & Moore, of Chicago called on Master Mechanic Bean at the shops.

Tomorrow is the Picnic Day.

The members of the First Congregational and the First Baptist church are working with a vim to make the event of their annual picnic at Merri-field tomorrow one long to be remembered. The indications are that there will be an unusually large attendance.

Some rare sport will be provided for the members of the Sunday school of both churches. The train will leave at 9 o'clock sharp.

Daily excursions to Buffalo and New York, via the Nickel Plate Road. Through trains to New York City without change. Vestibuled sleepers Chicago to Boston; Dining cars on all trains. Meals served on American club plan at from 35 cents to \$1.00. Write John Y. Calahan, General Agent, 111 Adams St., Chicago, for particulars.

WORD FROM MR. FRATER.

He and His Wife are Enjoying their Western Trip Very Much--Writes from Seattle.

The following is part of a letter which was received by A. G. Trommauld yesterday from County Treasurer John T. Frater, who is enjoying a trip to the coast, accompanied by his wife:

"We arrived in Seattle Thursday at 8.38 p. m., 54 hours out of Brainerd; quite a fast run for the distance, 1,852 miles. Had quite warm weather; and Tuesday in eastern Washington it was very hot. The trip has been quite interesting, and all new west of Glendive. We came over some very high hills, and to one who has never seen a mountain it was a revelation. We live in a big country and a man may well be proud of the starry flag that floats over such a country. I find Seattle a bustling city, along a beautiful water front and about as bustling as Chicago. It is very smoky and this morning I can not see across the sound, which in front of the city is quite narrow. Tomorrow we go to the navy yard to see the battle ships Oregon and Wisconsin. I am going to see all I can possibly in this time."

AMUSEMENTS.

One of the most interesting and original plays ever produced in this country will be at the Gardner Hall, Aug. 15.

It is entitled "The Daughter of the Diamond King," and is from the pen of Chas. A. Taylor, the well known dramatic author. The plot is woven about the life of an American girl who is both young and pretty, and daughter of one of the most picturesque characters in the great city of New York, Percy Golden, the African Diamond King. Two of the scenes are laid in the metropolis, and two of them in New England; the characters are drawn from those who move in the smart set, from those who live on the East side, or tread lower Broadway, and from gentle country folk who dwell in New Hampshire hills or way-down east. The story is one of delightful simplicity with a tremor of true love that is refreshing; the comedy is bright and natural and relieves the strain of the truly interesting plot which holds the interest of the audience from beginning to end. There

LA BELLE LAURETTE

is no shooting, no murder, yet many stirring scenes; one a wedding in the old country schoolhouse, introducing a chorus of children's voices. All the world loves children, and there are several pretty children with this company who possess dramatic talent and voices that are really wonderful. Then there is the Madi Gras scene introducing the Comedy Clowns—the Lenton Trio—Frank, John, and Kitty, who have exhibited their act before every nation in the world, there is the rehearsal of the village choir introducing a quintette of female singers, the New York Quartette and Miss I. A. Wynn, the Operatic Soloist. The dramatic cast is headed by La Belle Laurette, a popular young star of great beauty and dramatic strength, supported by Mr. W. A. Whitecar, a sterling young actor who needs no introduction. The scenery is by Frank D. Dodge, the costumes by Madame Cooney. The direction of the entire production being under the personal supervision of Mr. Chas. A. Taylor, the author, proprietor, and manager.

Military Organization.

A move is on foot at the Y. M. C. A. to organize a military company to include some of the younger members of the association. Assistant Secretary Simon will be the drill master if enough names can be secured and the boys will meet every week for drill and practice.

It is thought such a move would stimulate an interest in the work being done by the association in this city.

ASPIRES TO BE HIGH DIVER.

Young Walter Willis' Attempt to Break all Records Nearly Results Seriously Yesterday Afternoon.

Young Walter Willis, son of James Willis, has aspirations to become a high diver and yesterday afternoon when he and several of his young companions were playing circus at the home of the boys uncle, John W. Willis, just to make the thing more real he gave an exhibition that would make the cold chills run down the back of the bravest of aeroplants.

Several of the young boys held a carpet while he would go up on a small shed in the yard. He made the dive all right from this, but he wanted to get higher so he went up on the woodshed. This dive he also made successfully; but not to be out done by any performer that had visited this city this summer he got on the uppermost peak of the barn and with the same courage dived from this into the carpet. Of course the young boys could not withstand the force of so high a dive and when young Willis struck the carpet he struck the ground with great force. At first it was thought he was badly injured but Dr. Camp who was called states that he only got a good shaking up.

CAUGHT IN A CLOUDBURST.
A Virginia Postmaster Loses His Wife and Three Children.
Lexington, Va., Aug. 13.—Assistant Postmaster John G. Pole and his family, while attempting to cross a mountain stream about six miles from here, were swept down by the waters of a cloudburst and his wife and three daughters, aged from 1 to 8 years, drowned. Mr. Pole and a daughter about 3 years old escaped. The bodies were recovered.

Governor Declines to Interfere.
Seattle, Wash., Aug. 13.—In a signed statement Governor Rogers declared that he will not interfere in the Nordstrom case. Nordstrom was convicted of murder and sentenced to be hanged over nine years ago. The case has been kept in the courts ever since through the efforts of the convicted man's attorney.

Barkentine Priscilla Wrecked.
Halifax, N. S., Aug. 13.—The captain and part of the crew of the 2,000-ton barkentine Priscilla have landed at Cape Sable, reporting that the vessel struck a ledge off Barrington. A boat containing 14 men is missing. The Priscilla was bound from England for New York with a cargo of chalk.

Would Form a Hat Trust.
New York, Aug. 13.—Efforts are being made to form a hat manufacturers' trust and it is said articles of incorporation will be filed by those interested in the project within a few days. About 20 of the leading manufacturers of the United States are expected to enter the combine.

India Famine Prospects Improved.
London, Aug. 13.—The viceroy of India, Lord Curzon of Kedleston, reports that the famine prospects have been much improved by a heavy rain in Bombay presidency and that the government is considering the advisability of reducing somewhat the famine relief.

THREE WERE DROWNED.
Pleasure Yacht Sinks in the Galoup Rapids Near Ogdensburg, N. Y.
Ogdensburg, N. Y., Aug. 13.—Charles White, James Whitney and Edgar Lane were drowned in the Galoup rapids by the sinking of the private yacht Rheaud. Whitney, who was the owner of the yacht, had as guests on board the boat Lane and White, Hugh Raney, the Misses Whitney and the Misses McPherson. The four ladies and Mr. Raney got out at the head of the lock to walk to the foot of the rapids. The other three men remained on board the yacht, which, after passing the first swell of the rapids, entered what is known as "the cellar" and disappeared, carrying the three men down with her. The bodies have not been recovered. All of the parties resided at Prescott.

MISS BEAL IN DEMAND.
Husbands Galore For Girl Who Drew a Lucky Claim.

GETS MANY KINDS OF LETTERS.
Alleged Railroad Manager Offers Her a Big Block of Railroad Stocks as an Inducement—Medical Student Wants Her to Wait Two Years. Young Kansan Means Business.

Miss Mattie Beal of Wichita, Kan., who drew the second choice claim in the Lawton land district, is receiving as high as 100 proposals of marriage daily from all parts of the United States. In her absence in Oklahoma her mother and sister open them and find much amusement in their perusal. They expressed the other day about 200 of the letters to Miss Beal, who had not seen any of them owing to the fact that she has been away from home practically all the time since hearing of her good fortune.

Mrs. Beal allowed a representative of the Kansas City Times to look over such of the letters as were not marked "confidential," and he noted some peculiar phases of love sickness. One man claiming to be a railroad manager in Michigan gushes forth his love for Miss Beal in eloquent language and promises to make her a present of a block of railroad stocks worth from \$30,000 to \$40,000 if she becomes his wife. He says his friends call him handsome, that he is a widower, and, though far advanced in years, he looks young. He refused to give his name, but gave her the number of a postoffice box at a station in the vicinity of Detroit which he said he had rented especially for her communications to him, promising that when he should receive one letter from her he would satisfy her as to his identity and position.

The senior partner in a Kansas City manufacturing enterprise tendered Miss Beal his heart in a very pathetic manner, saying his last wife had been a telephone girl, whose brief reign of a year and a half over his household filled his home with sunshine. She died about three years ago.

A young man in St. Louis with \$4,000 cash and a house in Joliet, Ill., worth \$3,000 begs Miss Beal to let him know whether her heart is not pledged. His chief recommendation to her outside of his cash and tenement is that he wears a No. 6 shoe.

A saloon keeper at Paris, Tenn., would fain win her heart by means of a photograph and a positive assertion that while he is 36 years of age he has never loved a woman and did not think he ever should until he heard of her. He postscriptes the fact that he is strictly temperate and of a good disposition.

A wealthy Baltimore lady asks her to appropriate an acre of her claim to the cultivation of roses as a thanks offering to fortune.

A Tennessee young man boasts of having in his veins the best cavalier blood of the south and offers a long pedigree as an inducement for her to wed him.

A young man of Waterbury, Conn., asks nothing better than to be her neighbor and wants her to inform him how he can secure the claim adjoining hers. He has the money to pay for it straight, he says.

A "poor" young man living at Brazilton, Kan., is the only one who so far has inclosed stamps for a reply to his proposal.

"My proposal to you is not an idle fancy or transient passion," says a young manufacturer of New Trenton, Ind. "It is prompted by an impulse which I cannot control and impelled onward by a passion which overwhelms every other consideration. I have dared to address you with the hope that fortune, which sometimes seconds a desperate resolve, may favor my suit. Pray, madam, do me the favor to consider and approve my proposal."

One young man who is attending the Illinois Medical college at Jacksonville wants and begs her to wait two years for him. He says he will graduate then and will be in a position to make her lots of money.

One young man, a Kansan, of course, says: "You do not know how to farm. I do. If you marry me, I can furnish \$200 in cash and \$350 worth of farming utensils." It is cold business with the Kansan.

Monument to Missionaries.
A monument will be erected in Oberlin, O., soon which will be a suitable memorial to the memory of the martyred missionaries in China, says the New York World. It will take the form of an elaborate granite or marble shaft or a boulder bearing the names of the missionaries who lost their lives. The memorial is to be paid for by a voluntary subscription fund. The original "Oberlin band" sent forth from Oberlin and many retired missionaries, including Dr. Ament of Mark Twain fame, have homes in Oberlin.

The Christening Ring.
The christening ring is a new fad. It is a token of love and gratitude presented by a happy benedict to his wife on the occasion of the baptism of their first child. George Vanderbilt has the credit of having started the fashion, and the ring which he gave his wife is said to be worth \$6,000, having once been worn by a royal princess, says the Chicago News. The little finger is the place of the christening ring, and to be correct it ought to be set with the birthstone of the mother.

With a View to Submarine War.
Uncle Sam's next new experiment, says the Boston Globe, is likely to be in the line of submarine signaling.

GOMEZ DECLINES IT.
Sets Down on a Movement to Run Him for President.

Havana, Aug. 13.—General Maximo Gomez has addressed a letter to the local committee of the National party in Havana, who had chosen him as a candidate for the presidency of Cuba and Senor Estrada Palma as a candidate for the vice presidency. The communication runs in part as follows:

"On hearing what the committee has done I hasten to say that I must refuse to undertake such high office under the republic. So far as candidates are concerned I look upon Senor Estrada Palma and Senor Maso as the best selections that could be made for the presidency and vice presidency. Let all Cubans agree on this important matter and Cuba will have a strong and stable government, entirely fitted to deal with the external relations in which Cuba will have to exist as a republic."

A movement backed by a number of the revolutionary generals was started some time ago to endeavor to make Senor Palma the unanimous choice of the people for the presidency. Simultaneously overtures were made to Senor Maso with a view of persuading him to accept the vice presidency. It is asserted, however, that thus far Senor Maso has declined to fall in with this plan, as he relies upon the negro vote to elect him president.

HAVE AMPLE EVIDENCE.

Joint Committee Considers Bringing Suit Against Steel Trust.

Washington, Aug. 13.—The joint committee of the American Anti-Trust league and district assembly No. 66 of the Knights of Labor held another meeting to consider the question of bringing legal action against the United States Steel corporation.

The members say they are satisfied after conferences by telegraph and by letter with Hon. Frank S. Monnett of Ohio and with local attorneys that there is ample evidence available for a successful issue against the corporation. A special committee will be appointed to present the matter to Attorney General Knox with a plea that he institute proceedings against the trust under the Sherman act. If these efforts fail recourse will be had to mandamus or other proceedings to attain the object sought. The committee will co-operate with individuals and organizations in other states where help is desired in proceedings against the steel corporation.

NEW MAYOR ELECTED.

Ayuntamiento of Cienfuegos Chooses a Successor to Senor Vieta.

Havana, Aug. 13.—The ayuntamiento of Cienfuegos, in the presence of the civil governor of Santa Clara, has elected a new mayor, Senor Esquerro, to succeed Senor Vieta, who ceased to be mayor owing to his refusal to obey order 156, which places the police in the regular civil service.

Senor Vieta had dismissed the police and had refused to carry out the order of the military governor directing him to reinstate them and to comply with order 156.

The new police are being enrolled from among those dismissed by Senor Vieta. Their number will not be so large, as the municipality now pays the cost of police and cannot afford a force so numerous as that which was maintained at the expense of the state.

LANDS FOR HOMES.

An Area as Large as Massachusetts Available in Duluth District.

Duluth, Aug. 13.—There are over 8,000 square miles—5,283,000 acres—of vacant and unappropriated land in the United States land district of Duluth. This is a tract larger than the state of Massachusetts. It lies close to Duluth, none of it more than 150 miles away, and yet it is inhabited by a few Indians and occasional trappers and woodsmen.

It is no desolate region. There are several thousand square miles of valuable timber lands, pine, spruce and hard woods; there are hundreds of square miles of rich agricultural lands that will yield large crops, and there are areas of great extent known to be rich in minerals.

DIMMICK GOES TO JAIL.

Ex-Chief Clerk of San Francisco Mint Unable to Furnish Bail.

San Francisco, Aug. 13.—Walter N. Dimmick, ex-chief clerk of the United States mint, who is accused of embezzling \$30,000 from the government and with other minor delinquencies, was formally served with a warrant of arrest. He was held for trial on four charges, the aggregate bail being fixed at \$37,000. As this was not forthcoming Dimmick was placed in custody of the United States marshal and taken to the county jail.

Divers Recovering Stolen Gold.

San Francisco, Aug. 13.—It was stated at the office of the Selby Smelting company that a force of divers under the management of a detective agency had taken \$65,000 worth of gold from the spot where it was hidden by Winters, making nearly \$200,000 already recovered. It is expected that the remainder of the stolen treasure, amounting to \$30,000, will be recovered inside of 24 hours.

Twenty-seven Thousand in the Field.

Brussels, Aug. 13.—Mr. Kruger's friends here say he has received a report that there are now 17,999 burghers and 12,000 rebel Afrikaners under arms and well supplied with wagons and ammunition, although provisions are very scarce.

A Virginia Postmaster Loses His Wife and Three Children.
Lexington, Va., Aug. 13.—Assistant Postmaster John G. Pole and his family, while attempting to cross a mountain stream about six miles from here, were swept down by the waters of a cloudburst and his wife and three daughters, aged from 1 to 8 years, drowned. Mr. Pole and a daughter about 3 years old escaped. The bodies were recovered.

Governor Declines to Interfere.
Seattle, Wash., Aug. 13.—In a signed statement Governor Rogers declared that he will not interfere in the Nordstrom case. Nordstrom was convicted of murder and sentenced to be hanged over nine years ago. The case has been kept in the courts ever since through the efforts of the convicted man's attorney.

Barkentine Priscilla Wrecked.
Halifax, N. S., Aug. 13.—The captain and part of the crew of the 2,000-ton barkentine Priscilla have landed at Cape Sable, reporting that the vessel struck a ledge off Barrington. A boat containing 14 men is missing. The Priscilla was bound from England for New York with a cargo of chalk.

Would Form a Hat Trust.
New York, Aug. 13.—Efforts are being made to form a hat manufacturers' trust and it is said articles of incorporation will be filed by those interested in the project within a few days. About 20 of the leading manufacturers of the United States are expected to enter the combine.

India Famine Prospects Improved.
London, Aug. 13.—The viceroy of India, Lord Curzon of Kedleston, reports that the famine prospects have been much improved by a heavy rain in Bombay presidency and that the government is considering the advisability of reducing somewhat the famine relief.

THREE WERE DROWNED.
Pleasure Yacht Sinks in the Galoup Rapids Near Ogdensburg, N. Y.
Ogdensburg, N. Y., Aug. 13.—Charles White, James Whitney and Edgar Lane were drowned in the Galoup rapids by the sinking of the private yacht Rheaud. Whitney, who was the owner of the yacht, had as guests on board the boat Lane and White, Hugh Raney, the Misses Whitney and the Misses McPherson. The four ladies and Mr. Raney got out at the head of the lock to walk to the foot of the rapids. The other three men remained on board the yacht, which, after passing the first swell of the rapids, entered what is known as "the cellar" and disappeared, carrying the three men down with her. The bodies have not been recovered. All of the parties resided at Prescott.

MISS BEAL IN DEMAND.
Husbands Galore For Girl Who Drew a Lucky Claim.
GETS MANY KINDS OF LETTERS.
Alleged Railroad Manager Offers Her a Big Block of Railroad Stocks as an Inducement—Medical Student Wants Her to Wait Two Years. Young Kansan Means Business.

Miss Mattie Beal of Wichita, Kan., who drew the second choice claim in the Lawton land district, is receiving as high as 100 proposals of marriage daily from all parts of the United States. In her absence in Oklahoma her mother and sister open them and find much amusement in their perusal. They expressed the other day about 200 of the letters to Miss Beal, who had not seen any of them owing to the fact that she has been away from home practically all the time since hearing of her good fortune.

Mrs. Beal allowed a representative of the Kansas City Times to look over such of the letters as were not marked "confidential," and he noted some peculiar phases of love sickness. One man claiming to be a railroad manager in Michigan gushes forth his love for Miss Beal in eloquent language and promises to make her a present of a block of railroad stocks worth from \$30,000 to \$40,000 if she becomes his wife. He says his friends call him handsome, that he is a widower, and, though far advanced in years, he looks young. He refused to give his name, but gave her the number of a postoffice box at a station in the vicinity of Detroit which he said he had rented especially for her communications to him, promising that when he should receive one letter from her he would satisfy her as to his identity and position.

The senior partner in a Kansas City manufacturing enterprise tendered Miss Beal his heart in a very pathetic manner, saying his last wife had been a telephone girl, whose brief reign of a year and a half over his household filled his home with sunshine. She died about three years ago.

A young man in St. Louis with \$4,000 cash and a house in Joliet, Ill., worth \$3,000 begs Miss Beal to let him know whether her heart is not pledged. His chief recommendation to her outside of his cash and tenement is that he wears a No. 6 shoe.

A saloon keeper at Paris, Tenn., would fain win her heart by means of a photograph and a positive assertion that while he is 36 years of age he has never loved a woman and did not think he ever should until he heard of her. He postscripts the fact that he is strictly temperate and of a good disposition.

A wealthy Baltimore lady asks her to appropriate an acre of her claim to the cultivation of roses as a thanks offering to fortune.

A Tennessee young man boasts of having in his veins the best cavalier blood of the south and offers a long pedigree as an inducement for her to wed him.

A young man of Waterbury, Conn., asks nothing better than to be her neighbor and wants her to inform him how he can secure the claim adjoining hers. He has the money to pay for it straight, he says.

A "poor" young man living at Brazillton, Kan., is the only one who so far has inclosed stamps for a reply to his proposal.

"My proposal to you is not an idle fancy or transient passion," says a young manufacturer of New Trenton, Ind. "It is prompted by an impulse which I cannot control and impelled onward by a passion which overwhelms every other consideration. I have dared to address you with the hope that fortune, which sometimes seconds a desperate resolve, may favor my suit. Pray, madam, do me the favor to consider and approve my proposal."

One young man who is attending the Illinois Medical college at Jacksonville wants and begs her to wait two years for him. He says he will graduate then and will be in a position to make her lots of money.

One young man, a Kansan, of course, says: "You do not know how to farm. I do. If you marry me, I can furnish \$200 in cash and \$350 worth of farming utensils." It is cold business with the Kansan man.

Monument to Missionaries.
A monument will be erected in Oberlin, O., soon which will be a suitable memorial to the memory of the martyred missionaries in China, says the New York World. It will take the form of an elaborate granite or marble shaft or a boulder bearing the names of the missionaries who lost their lives. The memorial is to be paid for by a voluntary subscription fund. The original "Oberlin band" sent forth from Oberlin and many retired missionaries, including Dr. Ament of Mark Twain fame, have homes in Oberlin.

The Christening Ring.
The christening ring is a new fad. It is a token of love and gratitude presented by a happy benedict to his wife on the occasion of the baptism of their first child. George Vanderbilt has the credit of having started the fashion, and the ring which he gave his wife is said to be worth \$6,000, having once been worn by a royal princess, says the Chicago News. The little finger is the place of the christening ring, and to be correct it ought to be set with the birthstone of the mother.

With a View to Submarine War.
Uncle Sam's next new experiment, says the Boston Globe, is likely to be in the line of submarine signaling.

GOMEZ DECLINES IT.
Sets Down on a Movement to Run Him for President.
Havana, Aug. 13.—General Maximo Gomez has addressed a letter to the local committee of the National party in Havana, who had chosen him as a candidate for the presidency of Cuba and Senor Estrada Palma as a candidate for the vice presidency. The communication runs in part as follows:
"On hearing what the committee has done I hasten to say that I must refuse to undertake such high office under the republic. So far as candidates are concerned I look upon Senor Estrada Palma and Senor Maso as the best selections that could be made for the presidency and vice presidency. Let all Cubans agree on this important matter and Cuba will have a strong and stable government, entirely fitted to deal with the external relations in which Cuba will have to exist as a republic."
A movement backed by a number of the revolutionary generals was started some time ago to endeavor to make Senor Palma the unanimous choice of the people for the presidency. Simultaneously overtures were made to Senor Maso with a view of persuading him to accept the vice presidency. It is asserted, however, that thus far Senor Maso has declined to fall in with this plan, as he relies upon the negro vote to elect him president.

HAVE AMPLE EVIDENCE.
Joint Committee Considers Bringing Suit Against Steel Trust.
Washington, Aug. 13.—The joint committee of the American Anti-Trust league and district assembly No. 66 of the Knights of Labor held another meeting to consider the question of bringing legal action against the United States Steel corporation. The members say they are satisfied after conferences by telegraph and by letter with Hon. Frank S. Monnett of Ohio and with local attorneys that there is ample evidence available for a successful issue against the corporation. A special committee will be appointed to present the matter to Attorney General Knox with a plea that he institute proceedings against the trust under the Sherman act. If these efforts fail recourse will be had to mandamus or other proceedings to attain the object sought. The committee will co-operate with individuals and organizations in other states where help is desired in proceedings against the steel corporation.

NEW MAYOR ELECTED.
Ayuntamiento de Cienfuegos Chooses a Successor to Senor Vieta.
Havana, Aug. 13.—The ayuntamiento of Cienfuegos, in the presence of the civil governor of Santa Clara, has elected a new mayor, Senor Esquerra, to succeed Senor Vieta, who ceased to be mayor owing to his refusal to obey order 156, which places the police in the regular civil service.
Senor Vieta had dismissed the police and had refused to carry out the order of the military governor directing him to reinstate them and to comply with order 156.
The new police are being enrolled from among those dismissed by Senor Vieta. Their number will not be so large, as the municipality now pays the cost of police and cannot afford a force so numerous as that which was maintained at the expense of the state.

LANDS FOR HOMES.
An Area as Large as Massachusetts Available in Duluth District.
Duluth, Aug. 13.—There are over 8,000 square miles—5,283,000 acres—of vacant and unappropriated land in the United States land district of Duluth. This is a tract larger than the state of Massachusetts. It lies close to Duluth, none of it more than 150 miles away, and yet it is inhabited by a few Indians and occasional trappers and woodsmen.
It is no desolate region. There are several thousand square miles of valuable timber lands, pine, spruce and hard woods; there are hundreds of square miles of rich agricultural lands that will yield large crops, and there are areas of great extent known to be rich in minerals.

DIMMICK GOES TO JAIL.
Ex-Chief Clerk of San Francisco Mint Unable to Furnish Bail.
San Francisco, Aug. 13.—Walter N. Dimmick, ex-chief clerk of the United States mint, who is accused of embezzling \$30,000 from the government and with other minor delinquencies, was formally served with a warrant of arrest. He was held for trial on four charges, the aggregate bail being fixed at \$37,000. As this was not forthcoming Dimmick was placed in custody of the United States marshal and taken to the county jail.

Divers Recovering Stolen Gold.
San Francisco, Aug. 13.—It was stated at the office of the Selby Smelting company that a force of divers under the management of a detective agency had taken \$65,000 worth of gold from the spot where it was hidden by Winters, making nearly \$200,000 already recovered. It is expected that the remainder of the stolen treasure, amounting to \$30,000, will be recovered inside of 24 hours.

Twenty-seven Thousand in the Field.
Brussels, Aug. 13.—Mr. Kruger's friends here say he has received a report that there are now 17,990 burghers and 12,000 rebel Afrikanders under arms and well supplied with wagons and ammunition, although provisions are very scarce.
